Tabs for SE-24

1. It is suggested that responsibility for preparing supporting tabs for SE-24 be allocated as follows:

OIR

A description of the nature and scope of the propaganda effort, including detailed information in support of the general statements included in paragraphs 1-5 of the basic paper. (OIR can probably draw [redacted] for useful tabulations, STATSPEC charts and graphs concerning radio output.)

OSI

Discussion of the medical and technical aspects of the situation, as mentioned in paragraph 6 and 8, and of Communist offensive and defensive BW capability as mentioned in paragraph 9.

OCI

A description of the impact of the campaign in North Korea and Manchuria, of its effect in convincing personnel there of its authenticity and of the countermeasures being adopted as mentioned in paragraph 7; and a brief summary of *(lack of indications or* indications, of imminent Communist moves as mentioned in paragraph 15.

2. While basic tabs should be of a TS classification, both OSI and OCI should be asked for all-source supplements to their tabs.
